1. [ ] Comment. Probably troop shipments.

25X1

2. [ ] Comment. Omitting probable troop shipments, a total of 3,935 cars were loaded during the period of observation. A comparison with the volume of shipments loaded during the last period of observation is possible to a limited degree only, because of the fluctuating number of railroad stations covered. [ ]

25X1

25X1

[ ] Compared with September, a decrease of about 500 carloads was noticed in October. This is partly interpreted by the fact that some of the supply depots, e.g. Nuellrose and Kammersdorf, were not covered. The high volume of shipments again emphasizes the importance for the transportation of the Berlin railroad district. [ ] Compared with the rate of shipments in the railroad districts of Erfurt and Dresden in July and October respectively, a total of 1,017 and 1,066 carloads were handled. Most of the loadings were made in the supply centers of Fuerstenwalde, Jueterbog, Satzborn and Velten. The number of shipments reported for Frankfurt/Oder is believed to contain shipments from the U.S.S.R. as well as those loaded in Frankfurt/Oder, the latter making up the majority.

25X1

25X1

25X1

3. [ ] Comment. Shipments of discharges to the U.S.S.R. from the processing points of the Second Gds Mecs Army in Altruppin and of the Third Gds Mecz Army in Jueterbog, via the border crossing stations of Kuestria and Guben.

- 25X1 9. [ ] Comment. Recruit shipments were redispached to the military posts in the zone from Frankfurt/Oder. [ ]

- 25X1 [ ] presumably belongs to an unidentified artillery unit in Potsdam. belongs to the 84th Gds Hw Tank SP Regt of the 7th Gds Mezz Div in Frankfurt/Oder. is reported for the first time.
- 25X1 It is of interest that the two units of the 7th Gds Mezz Div and [ ] handled only the redispach to posts of the Fourth Gds Mezz Army.
- 25X1 10. [ ] Comment. Return shipments of the 6th Gds Tank Div to Wittenberg from the Werder-Markendorf troop training grounds.
